

# Learn more about Cytek's Spectral Flow Cytometry

Wednesday, 3 July from 10am  
at the BMC (N02.020)

## Full Spectrum Profiling™

Learn more [here](#)

Spectral Flow Cytometry has taken the scientific community by storm. In this seminar you will discover how Cytek's Full Spectrum Profiling enables researchers to build multi-colour panels with ease, and how autofluorescence can be removed or used as a characteristic signal.

### Talks by

**Dr. Knut Petkau** ([kpetkau@cytekbio.com](mailto:kpetkau@cytekbio.com))

Full Spectrum profiling is the new standard– why you should use it and how easy it is to handle. Unmixing is the new compensation ...

**Dr. Sebastian Lunemann** ([slunemann@cytekbio.com](mailto:slunemann@cytekbio.com))

How to handle multiple Autofluorescence, Panel design and more
