

Smart Panel Design & Advanced Tools for Clean Data in Flow Cytometry

Tuesday 4th November 2025, 10:00-11:00
N02.014, Großhaderner Straße 9, 82152 Planegg

Your next step in flow cytometry – join this exciting event and learn how to design smart flow cytometry panels and use next-generation tools to make your data cleaner and more reproducible.

You will also find out how to label any antibody in just 10 minutes, saving you resources and expanding your colour choices, and how to avoid Fc receptor binding using FcZero recombinant antibodies.

Features:

- In-depth Q&A
- Certificate of attendance
- Discounted samples* (email anda@ptglab.com)
- Free pizza!
