Data Analysis	service	40	100		
Instrument Training	service	costs of self-operated mode	costs of self-operated mode	<24h	50%

* exceptions/rebates apply for certain user subgroups/affiliations
--- calculated after inquiry

Service Operation fees include project discussions, standard quality control protocols, transfer of raw data as well as troubleshooting and experimental advice if needed.
All aspects of the Service are subject to confidentiality.
Further conditions for service operation depend on the scope of the project.

Cancellation fees do only apply if the slot is not picked up by other users. Moving of sessions within the same workday remains free of charge. Cancellations that are necessary due to validated instrument incidents, or relevant other cases of hardship, remain free of charge upon notification. Booked sessions that are not used (=forgotten about/forgotten to cancel), are fully charged.

Training fees correspond to the self-operated usage fee, but apply for each trainee. Charged are only the training units at the instrument. Mandatory yearly laser safety training is not charged.
Classroom trainings and workshops are free of charge for active users from categories A and B. Other interested parties can participate as well, the fees are stated in the registration form on PPMS.

Please consult our website for more detailed information.
