Service Operation fees include initial project discussion, standard quality control protocols, transfer of raw data, troubleshooting and experimental advice as needed.

Training fees are equal to the self-operated usage fee, and applying to each trainee. Charged are only the training units at the instrument. Mandatory yearly laser safety training is not charged.

Classroom trainings and workshops are free of charge for active users from categories A and B. Other interested parties can participate as well, fees are stated in the registration form on PPMS.

Cancellation fees do only apply if the slot is not picked up by other users. Moving of sessions within the same workday remains free of charge. Cancellations that are necessary due to validated instrument incidents, or relevant other cases of hardship, remain free of charge upon notification. Booked sessions that are not used (=forgotten about/forgotten to cancel) are fully charged.
